

**Mobile A/V Cabinet**  
**Model MM-503**

*(Standard unit shown above)*

### **Description**

The Exact Furniture Mobile A/V Cabinet is a great replacement for the Smart Technologies Inc. Expression 503 cabinet offering similar features and functionality but with more options. The unit has a large durable work surface, adjustable internal shelving and locking doors to secure your equipment. Exact offers several options to allow the user to buy only those features that they need.

### **Standard Features**

- Adjustable tilting projector shelf
- Locking flip-up mirror flap with 94% reflective first surface mirror
- Constructed from durable melamine
- Impact resistant t-molding on top and bottom
- Three adjustable removable shelves
- Three locking front doors
- Three internal compartments, two large enough for DVD and VCR players and the other designed to hold a computer. The larger sections will take rack rails if needed
- High quality, locking, 4" polyurethane wheels
- Cable management system
- Surge protected power bar
- Equipment tie-down straps

### **Options**

- Audio system including stereo speakers and amplifier
- No projector option which removes the projector shelf and flip-up mirror
- Audio and video switcher between a laptop and internal computer
- Lap-top connection panel on top of unit with audio, video and network cables and power outlet
